Planning

Design

Construction

Complete

- **Safe School Walk Routes**
- **Continuous Sidewalk Facilities**
- **Pedestrian Safety Education**

Thank you in advance for your patience and cooperation as we make enhancements to your neighborhood.

What: We are pleased to announce that the City has received a Federal Safe Routes to School Grant to construct a sidewalk on the west side of 104th Avenue NE from NE 68th Street where sidewalk is missing and along the north side of NE 67th Street where the sidewalk is missing east of 103rd Avenue NE. In addition, a pedestrian activated rectangular rapid flashing beacon, better signage and markings at NE 68th Street at 104th Avenue NE will be included. The project also upgrades ramps at NE 67th Street/103rd Avenue NE and NE 67th Street/104th Avenue NE, and NE 68th Street/104th Ave. See diagram on back.

Why: The grant addresses a top priority route for Lakeview Elementary School. Education and enforcement along School Walk Routes is also part of the grant. The sidewalk will be located on City right-of-way at no cost to adjacent property owners.

When: Unfortunately this work was unable to be completed over the summer. We are working with the contractor to complete the project as fast and safely as possible. Construction is expected to start Thursday, September 6 and be complete by the end of September. Many factors (including weather) could influence the timeline. For up to date schedule information and/or rescheduling information please call the hotline number (425-587-3838) or check the Project web page at www.kirklandwa.gov (Lakeview Sidewalk) Typical hours of operation are Monday-Friday 7:00 am to 6:00 pm. However, early evening hours may be necessary to minimize work during high volume school drop off and pick up times.

What to Expect:

Traffic control: During school drop-off/pick-up times, the Contractor will turn off all heavy equipment. Flaggers will be on-site to assist pedestrians in getting to school. There may be inconvenience associated with driving through the work zone.

Parking: In order to complete the Project as efficiently as possible, the contractor will be restricting parking along the construction area. "No-parking" signs will be posted 24 hours in advance of all parking restrictions.

Driveway access: Driveway access will remain open for properties along 104th Avenue NE and NE 67th Street. However, properties immediately adjacent to the sidewalk may have limited driveway access for up to a week while fresh concrete is allowed to cure (6731 104th Avenue NE, and 6702 103rd Avenue NE only). Advance notice will be provided prior to restricting access to driveways.

Construction Staging: The contractor may be parking equipment and storing materials overnight on the streets adjacent to the Project and within the parking lot for Terrace Park. Should problems arise, please contact one of the individuals listed below.

Emergency vehicle access: Access for emergency vehicles will be maintained throughout the construction process.

After hours: The contractor is required to backfill and/or cover their work at the end of each day so there will be no open trenches left over night.

Garbage/recycle/yard waste service: Garbage/recycling pick-up locations and schedules will remain the same unless notified by the contractor.

Mail service: The contractor will be coordinating with the postal service so mail delivery is not impacted.
